Welcome to the Bridges website. The site is a hub dedicated to helping people who want to become U.S. citizens. The site has a civics pre-test designed to familiarize the test taker with similar questions to the ones you will be asked on the U.S. immigration test. The site also has pertinent links to address your concerns about citizenship and sponsorship issues and immigration news. Bridges is a project of the cohorts in the Rutgers Coding Boot camp in New Brunswick, NJ. This group consists of Alvaro Martinez, James Davis, Waverly Gaither and Bryant Bello.
